

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Remember that the IMPROVEMENT ERA is the organ of the Priesthood quorums. Read it. The ERA radiates the spirit of the gospel in every page.

## A Word to Quorum Class Leaders and Members

Doubtless all will agree that the great aim in studying the subject, *Jesus The Christ*, is to enlarge our knowledge of facts, to increase our faith in the divine mission of the Son of God, and to learn the doctrines of the plan of salvation. To accomplish this there must be a clear notion in the minds of all, and especially in the mind of the class leader, of what each chapter treats.

The first essential is to read the text, in connection with the Scriptures bearing on the subject, indicated by the references at the foot of the pages, and reprinted under each lesson in these outlines. This will lay a splendid foundation for a better understanding of the subject.

The references have to do with the subdivision of the chapter headings, and not with the questions or problems of the analysis.

The references have two purposes: (a) to direct the student to the data of the story, and (b) to sustain and illustrate the argument of the author.

It should be remembered that many of the footnote references are illustrative of incidental and ofttimes of remote topics, in the text. Bearing this in mind, the student, it is believed, will easily overcome any tendency to confusion in following the subject through the references, in this analysis.

The second essential is that both leader and class get the author's view-point. The members should be attentive while the class leader is reviewing the subject; and, also, concerted attention should be observed when a member is giving an exercise.

Each member should be eager to take any part assigned him, not so much for the fact that probably he may be better informed than others, on some particular question, but that he may seize the opportunity to put his thoughts to speech. Co-operation will produce interest and enthusiasm.

#### 4 MELCHIZEDEK PRIESTHOOD AND PRIESTS.

The following suggestions may be found helpful:

Over-haste in treatment should be avoided as it may lead to the omission of important matter. The leader should always have some reserve questions.

Stay with the subject. It will be found that each chapter contains a definite theme, with subordinate topics clustering around it. Questions which have no bearing on the lesson should be discouraged.

Personal arguments between members, during the recitation, should not be permitted, but pertinent questions should be discussed, in proper order.

Timid and backward members should be given full opportunity to take part. Emphasize facts rather than theories.

The questions and topics for discussion, given in these outlines, are merely suggestive, and the class leaders, if they think advisable, may select other topics from the text for discussion.

The bearing of testimony on some topic of the lesson is a good way to relate the subject to actual life: in other words, endeavor to vitalize the printed page. The oftener an abstract idea can be reduced to concrete form, the better it will be understood. Furthermore, bearing testimony of analogous incidents enhances the value of the incident that happened hundreds of years ago. For example, if the incident under consideration be the casting out of an evil spirit by the Savior, any personal testimony concerning a similar manifestation of the power of the priesthood, in this day, greatly increases the interest of the lesson.

These outlines are so arranged that they may be used for a class program, the names of those to whom the various topics are assigned may be written by the teacher or the members, in the blanks provided for that purpose.

## LESSON THIRTY-NINE.

### Ministry of the Resurrected Christ on the Western Hemisphere.

Pages 721-744.

1. **The Lord's death signalized by great calamities on the Western continent.—The voice of the Lord Jesus Christ heard.**  
Compare the glorious signs of His birth with the terrible signs of His death. Compare the enjoyment of the Holy Ghost with the experiencing of a miracle. Expand on the following: "Therefore, blessed are ye if ye shall believe in me, and be baptized after that ye have seen me, and know that I am; and again more blessed are they who shall believe in your words, because ye shall testify that ye have seen me and know that I am."

Discussed by .....

2. **His visitations to the Nephites.—The Nephite Twelve.—Baptisms among the Nephites.—The Mosaic Law fulfilled.**  
Compare the number of persons who saw and heard Christ after His resurrection on the Eastern continent with the number who saw, heard, and felt of the hands and the feet of the Christ on the Western continent. Compare the words used by the Father in the introduction of the Christ: when baptized by John in Jordan; when the Christ first appeared to the Nephites; when Joseph Smith's first prayer was answered. What

degree of importance did Christ attach to the ordinance of baptism? Compare the statement in the Jewish scriptures with that in the Book of Mormon pertaining to the fulfilment of the Mosaic law.

Discussed by .....

**3. Address to the Nephites compared with the Sermon on the Mount.—Sacrament of Bread and Wine instituted among the Nephites.**

Discuss the address of the Christ to the Nephites in the light of a preamble to the principles and ordinances of the gospel. For what specific purpose was the sacrament instituted? On the second day's visit, where did the bread and wine come from? What responsibility rests upon those who are privileged to administer the sacrament to others? (Note that the duty of warning the unworthy against partaking of the Sacrament rests with the Bishopric, not with the deacons or others who are appointed to pass the bread and water amongst the congregation.)

Discussed by .....

**4. Growth of the Church.—Final apostasy of the Nephites.**

Discuss the consistency of the names of the various churches with that for which they stood when Joseph Smith received his first vision. Why should the name of an organization be consistent with that for which it stands? In what respect did the Savior consider the labors of the three disciples who should tarry to be of importance? Where and when has righteousness prevailed for the longest period in human history? What were the chief characteristics of the people during this period? How can human beings endure prosperity and progress without becoming proud and haughty?
